Other postemployment benefits (OPEB) are benefits provided to retirees other than pensions. SCSOS's only OPEB commitment is for retiree health care. Historically, government agencies have funded these costs on a "pay as you go" basis. However, the Governmental Accounting Standards Board's (GASB) Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, requires that government agencies begin recognizing (accruing) the cost of OPEB as promised benefits are being earned. SCSOS has been investing in the county treasury for the future cost of these benefits. The county treasury is currently earning 1.5%.

Barbara Henderson reviewed the Summary Report of Revenues, Expenditures and Changes in Fund Balance.

SCSOS Leadership Team had crucial conversations with all staff members recently. The Leadership Team had a two day retreat to discuss and develop a plan to be supportive of the needs of employees and to be transparent. The team discussed communication, accountability, relationships, procedures and professional development. Information will be shared with employees regarding what the next steps will be. Discussion continued with the Board.

Bal went to a lobbying session on Monday, May 8th, and there was a lot of discussion regarding the shortage of teachers; AB 169 would establish a program to provide a grant to each student enrolled in an approved credentialing program who commits to working in a high-need field for four years after he or she receives a preliminary teaching credential. AB 170 basically states that if you are majoring in elementary education as an undergrad, this bill would skip the one year of teacher credentialing so you could become a teacher in four years rather than five years.

June stated she went to the YCUSD Board Meeting last night and she reported the Butte Vista Choir sang at the meeting; the district honored several Eagle Scouts from Troop 389; there was a lot of talk about the change in the River Valley principal, even though it was not on the agenda; Tierra Buena and Barry are both getting new multipurpose rooms; and Speech Therapists are not a happy group at YCUSD, there are only seven total.

2017-20 Plan Summary

THE STORY

Briefly describe the students and community and how the LEA serves them.

Feather River Academy (FRA), Fully Accredited by the Schools Commission of the Western Association of Schools and Colleges, is an alternative school established by the Sutter County Superintendent of Schools to provide specialized education services for students who require an alternative education program. Feather River Academy consists of a county community school including an Independent Study Program (ISP). Feather River Academy and the Independent Study Program are housed on a campus next door to the Sutter County Superintendent of Schools Office. FRA is an innovative alternative education program offering individualized educational options in a safe, challenging, and need-fulfilling environment. Students are encouraged to acknowledge responsibility in both the local and global community. Students prepare for a successful quality life according to their individual needs. Students in grades 7 – 12 who are at risk of being expelled, have been expelled, or are referred by courts or probation are served by Feather River Academy. The Independent Study Program is an option for FRA students who demonstrate a high degree of self-motivation and prefer a self-guided program under the guidance of a credentialed teacher. Independent study is an alternative to classroom instruction for at risk youth and is consistent with the county office’s course of study and not an alternative curriculum. It provides individual students with a choice of ways to acquire the values, skills and knowledge all students should gain as verified in a written agreement. Independent study can be a part of, be separate from, or be in addition to a regular classroom program. All programs work closely with students and parents to provide a focused instructional program that leads to graduation or eventual return to their home school. The enrollment at FRA fluctuates during the school year between 50-100 students. Data collected is not always truly reflective due to the small sample size of participants, especially in subgroups.

LCAP HIGHLIGHTS

Identify and briefly summarize the key features of this year's LCAP.

- Purchase of Chromebooks and pilot program of Google Classroom and G-Suite at FRA.
- Credit recovery options expanded at FRA to include Odysseyware.
- Trauma informed care practice training and progress towards implementation of restorative justice practices at FRA.
- Mentor program to support positive relationships and connections to adults for Foster Youth.

REVIEW OF PERFORMANCE

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

FRA had a new principal this year as well as several new staff members. The staff has come together under the theme of "Setting the Conditions for Success" with a focus on relational capacity, adaptive capacity and aspirational capacity. The staff has used this as the driving force for their work this year. This theme has allowed the staff to engage with stakeholders in new ways. Home visits have increased in the 16-17 school year with the intent of getting students to school by providing transportation. The school has increased student engagement by offering CTE Agriculture courses and reinventing the school greenhouse. Sixty Google Chromebooks were purchased and Google classroom was implemented to provide students the opportunity to learn beyond the classroom. Aeries Analytics was purchased and the staff has begun the work to create early warning indicators to identify students who have a large number of discipline referrals or are falling further behind on credits. Additionally, the staff has received training on Trauma Informed practices and will be sending the entire staff to training in the summer of 2017 in the Nurtured Heart Approach as a way to continue to provide opportunities for staff and student to focus on restorative practices vs traditional discipline approaches. Staff assigned specifically to monitor the needs of English Learners and Foster Youth have allowed those students to have a single point of contact if the need arises and the staff can provided needed mentorship and support. Due to the transient nature of students who attend FRA it is difficult to determine overall growth as the student population changes. It has been more beneficial for the staff to make the relational connections with students to support needs at the point and time they are enrolled at FRA.

GREATEST PROGRESS

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the LEA received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

GREATEST NEEDS

The students at Feather River Academy (FRA) come to school with needs beyond academic concerns. We have noticed an increase in the need for mental health services, homeless services and services to support families beyond educational needs. The need for increased services has led to discussions about how to serve students whose needs are great within the school day. In addition to the environmental challenges, students are often severely credit deficient, missing basic skills and are often on probation or have other legal mandates. FRA has identified, with the input of stakeholders, the need to develop a comprehensive system of support for all students. FRA is using the Multi-tiered Systems of Support (MTSS) framework to align behavior and academic supports to ensure that all students are served based on an aligned data collection system. Curricular materials and instruction along with behavioral supports will be aligned to the MTSS framework as well as data collection. The need to support students who transition out of FRA has also been identified. FRA will be exploring a more comprehensive process to assist students during the 17-18 school year with its focus on the update to the County Plan for Expelled Youth.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

PERFORMANCE GAPS

Academic Indicators: (Priorities 2 and 4)

Data is not provided regarding student performance by subgroup in core content areas via the California Dashboard for Alternative Programs. Local Data is available for both English Language Arts and Mathematics. A review of the local 2016 data indicated the following performance for students in ELA and math by selected subgroups on the CAASPP assessments.

The local data indicates gaps in the areas of mathematics, English Language Arts and support for English learners, foster youth, and socio-economically disadvantaged students. These gaps are often more difficult to address when student behavior gets in the way of learning. Additionally, the transitory nature of students in and out of FRA makes it difficult to have data that is specific to the current student population. Goals will be written to address the academic as well as the behavioral and social emotional needs of students at FRA.

Chronic Absenteeism: (Priority 5)

Attendance is a concern at FRA with a majority of all subgroups considered chronically absent. This data is not a surprise as many of our students are referred to us for attendance/SARB issues. The use of an attendance officer has provided additional support and he has conducted 115 home visits to address the issue of attendance and provide immediate transportation to school for students. FRA will continue to focus efforts on attendance by providing attendance incentives as well as increasing student engagement and relational capacity with students.

English Learner Progress (Priority 4)

The progress of our English Learners is of concern. The staff will continue to seek training and implement strategies to improve their academic achievement. The staff will also focus on reducing the number of long term English Learners and continue to provide additional staff one-on-one support to EL's, RFEP's and LTEL's.

Suspension Rate(Priority 6)

Suspension data is tracked in our student information system. For 2016/17 there were 47 students that committed an offense that resulted in 99 days of suspension. In 2015/16 FRA had 61 students that committed 147 offenses that resulted in 131 days of suspension. While this demonstrates a decrease in the number of students and days of suspension, this is an area of concern. Staff is continuing to pursue alternatives to suspension. The staff at FRA has participated in training on Trauma Informed Care, Capturing Kids Hearts and A Nurtured Heart Approach. However, there is still a concern that the overall disciplinary practices are punitive and are not restorative. This is an area of need for FRA that will be a focus for the 2017-18 school year and FRA will add a coach that will focus on the implementation of The Nurtured Heart Approach to assist with reframing practice in and out of the classroom. Practices will be aligned to the Multi-tiered Systems of Support Framework (MTSS) to ensure that all students are served.

School Climate: (Priority 6)

The staff at FRA is working hard to build relational capacity with all students. This is an area of need as most students that come to FRA have not had a positive school experience and often have environmental factors such as drug and alcohol use as well as mental health concerns such as chronic sadness and suicide. The most recent California Healthy Kids Survey Data (CHKS) reports the following in several key indicators.

2016-17 California Healthy Kids Survey

Indicator	%
Current Alcohol and Drug Use (past 30 days)	57
Experienced chronic sadness/hopelessness (past 12 months)	39
Considered Suicide (past 12 months)	23
Been Drunk or "high" on drugs at school, ever	48
Academic motivation	16
Truant more than a few times	29
School meaningful participation	5
Caring adult relationships	26
School connectedness	31
Sample Size = 68 Average Response Rate = 96%	

The entire staff has committed to attend training on The Nurtured Heart Approach and is developing relationships with Sutter/Yuba Behavioral Health and other partners to address the mental health and drug and alcohol concerns that are present. Currently, students regularly report that they are homeless and the staff reports that they are aware of at least ten families that are currently homeless (but not formally identified). Community partnerships to help provide family supports and services for homeless families are being explored and the hope is to have an onsite coordinator funded by Sutter/Yuba Behavioral Health housed at FRA to assist students with both drug/alcohol issues and homelessness by December of 2017.

INCREASED OR IMPROVED SERVICES

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

Additional training for staff on the needs of these specific types of students and align instructional practices to best support all learners.

Development of partnerships with local agencies to provide more services to students on the school site and within the school day to address drug, alcohol, mental health and homelessness.

Increased collaboration with districts and local agencies to ensure that we are working together to support students with the greatest needs.

Increased opportunities for students to see beyond a high school diploma by providing mentoring services, career pathways, and opportunities to learn about available education options post high school.

The Sutter County Superintendent of Schools is located in Yuba City, in north-central California.

The county office offers a number of services to its student and district populations, including fiscal assistance and oversight, special and alternative education programs Tri-County Career Technical & Induction programs (BTSA), a SELPA, curriculum, instruction programs, Career Technical Education, and adult education.

The Sutter County Superintendent of Schools Office plays an important role in the delivery of quality education to the students of this county. We provide direct service instructional programs to nearly 9,500 students annually through infant programs, special education, vocational/ occupational programs, outdoor science, adult education, and alternative education. These programs are operated more efficiently by the county than by a school district (with economy of scale) and more appropriately than a school district with confined boundaries. The Sutter County Superintendent of Schools Office provides these services to district students through cooperative agreements among participants.

The Sutter County Superintendent of Schools Office has an outstanding staff dedicated to delivering successful solutions to the challenges of our local and regional partners by providing innovative support and services to promote education and self-sufficiency.

SCSOS provides these services to more than 21,000 public school students located within 12 school

districts and 9 charter schools including approximately 435 students served by county operated schools. Services and programs include:

Budget oversight and assistance, Local Control Accountability Plan (LCAP) support, Special and alternative education programs, Tri-County ROP/Career Technical Education, Tri-County Induction Program (BTSA), Adult Education, Special Education Local Plan Area (SELPA), Federal and State compliance for Sutter County Districts, Medical Administrative Activities, Credential analysis, Student Attendance Review Board, Countywide staff development, Countywide technology support, Countywide Facilities Support, Supporting Dislocated Workers through Federal and State Grants, and Fiscal Support for our smaller district and charter schools.

ANNUAL MEASURABLE OUTCOMES

EXPECTED

1. WASC accreditation will be maintained
2. There will be a 4% increase in the number of students who complete Algebra 1.
3. Because two years of data is needed to determine growth targets, the 2014-15 and 2015-16 CAASPP ELA and Math scores will be used to determine targets. Therefore, analysis will occur based on these test years and growth targets will be determined and recorded in the LCAP for the 2016-17 school year update.
4. HQT in Core subjects will be maintained, and there will be an increase of HQT in all subject areas.
5. Standards aligned instructional materials will be purchased.
6. Students will be increasingly instructed using standards-aligned materials
7. Course access to CORE classes will be improved and maintained

ACTUAL

1. Several FRA staff members, as well as the Director of Student Support Services, have served on WASC committees during the 16-17 school year to provide insight to FRA regarding the development of the mid-term progress report and WASC visit that will occur in the 17-18 school year.
2. Sixteen students completed the Algebra 1 requirement during the 16-17 school year. That is a decrease from the 2015-16 total of 19 students.
3. When comparing the 2016-17 CAASPP mathematics scores to the 2015-16 scores it showed an increase of all students met standards of 2.9%. Completing the same comparison for CAASPP ELA scores the scores showed an increase of 2.4% of students who scored standard met.
4. All teaching positions are filled with teachers that are considered HQT.

based on students' credit deficient needs.

8. Students will show a 2% growth on the Renaissance Learning English and Math portion as assessed three times/year.

5. Standard aligned materials were purchased for World History, U.S. History, Economics, Government, English 9-12 and mathematics.

6. Student's use of standards aligned materials have increased as more materials have been purchased. Additionally, for teachers who use Google classroom the engagement in the standards materials has increased.

7. The master schedule was designed and adjusted each quarter to ensure students had access to courses as credit needs arose. Additionally, Odysseyware was introduced as an option for students to earn credits.

8. The Renaissance Learning data for pre and post test scores had a very small sample size. The LCAP team decided to use the summary reports for English using the Instructional Reading Level (IRL) to serve as a criterion reference score. The instructional reading level by grade level are indicated below by grade level and averaged over the three administrations.

Grade	Admin 1	Admin 2	Admin 3	Average
7	2.9	3.7	3.5	3.4
8	4.4	5.6	3.3	4.4
9	4.9	4.4	4.8	4.7
10	5.7	6.0	5.7	5.8
11	6.8	5.2	5.3	5.8
12	5.8	4.3	6.2	5.4

For math the team determined that the grade equivalent would be a reportable measure. The scores for each administration by grade level with a grade average are indicated below.

Grade	Admin 1	Admin 2	Admin 3	Average
7	3.4	4.1	4.6	4.0
8	4.9	6.7	4.7	5.4

One of the challenges with analyzing benchmark like scores is that due to the transient nature of the student population the students assessed are not the same from one administration to the other. This metric has been removed in the 2017-18 LCAP as it is not a valid measure.

2. The achievement gap between foster youth and the general student population will decrease by 2% through a comparison of data based on student's age, grade, chronic attendance rates, time of enrollment, and standardized test results.
3. There will be a 5% increase in the number of foster youth for whom key stakeholders have received timely health and education-related information

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	2016-17 was the second year of the current county office of education expulsion plan. During the 16-17 school year the largest district had a change in staffing which resulted in new discussions about plan elements. The beginning discussions were productive and the team will finalize any updates and changes to the plan during the 17-18 school year.
Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.	The data collected regarding expelled youth has been difficult to track. As we have identified this need we have purchased additional software and developed procedures to ensure that we are tracking the expelled youth in a more comprehensive manner. One of the other elements of concern is the ability for students to return to their home school. When updating the plan for expelled youth one of the areas of focus will be to add clarity to this area of the plan to ensure all districts have the same understanding of the return process.

INVOLVEMENT PROCESS FOR LCAP AND ANNUAL UPDATE

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

Timeline for Stakeholder Engagement

Data collection as detailed above. July 2016- June 2017

Public Hearing. June 21, 2017

IMPACT ON LCAP AND ANNUAL UPDATE

How did these consultations impact the LCAP for the upcoming year?

Data was gathered and analyzed from all the stakeholders detailed above. The aggregated data was then used to prioritize the COE areas of focus that were then used to drive the development of LCAP goals, actions and services. The data collected from the annual update was used to adjust and refine these goals, actions and services to best meet the needs of the students served at Feather River Academy and supports to districts for Foster Youth. Feedback collected regarding school climate and culture and community need that was not measurable, but which, nevertheless was persuasive enough to drive some of the actions and services.

Stakeholder engagement related to the process for the annual review of the 2016-17 school year was incorporated as identified needs for revisions and adjustments. In addition, goals and aligned actions and services included in the 2017-18 LCAP were adjusted and amended accordingly. The annual update was positively impacted through stakeholder engagement insofar as progress reports were regular and ongoing throughout the school year as described above. Stakeholder input based on regular reviews of the data was integral to identifying areas where progress was deemed sufficient. In addition, a public hearing was held in which COE staff provided a detailed account of progress to the County Board of Education. This account specifically identified areas of strength and weakness. Areas of weakness were the target of direct discussion including how the LCAP goals, actions and services were adjusted to better meet the needs identified. As an example, the action of creating pacing guides

and providing instructional coaching was not met and as a result a renewed focus on how to ensure this action was completed was identified and strategies discussed. In this way, the spirit of ongoing improvement has been honored and the COE efforts to provide a transparent analysis of its work to better serve students have resulted in the revisions necessary to demonstrate ongoing improvement.

Goal 2

Identify barriers and strategies to overcome those barriers to improve school environmental scales as reported in the California Healthy Kids Survey (CHKS) and support all students by creating a school climate that is safe.

State and/or Local Priorities Addressed by this goal:

STATE 1 2 3 4 5 6 7 8

Identified Need

Suspension Rates:

The staff at FRA has participated in training on Trauma Informed Care, Capturing Kids Hearts and A Nurtured Heart Approach. However, there is still a concern that the overall disciplinary practices are still punitive and are not restorative. Suspension results calculate to a suspension rate of 42 % (42 students suspended for 99 days)

School Climate:

The staff at FRA is working hard to build relational capacity with all students. This is an area of need as most students that come to FRA have not had a positive school experience and often have environmental factors such as drug and alcohol use as well as mental health concerns such as chronic sadness and suicide. The most recent California Healthy Kids Survey Data (CHKS) reports gaps in environmental scales.

Sutter County has twelve districts that depend on the COE for support with services to identified foster youth. The Intervention and Prevention Programs (IPP staff) assist districts by providing training, and case management services by serving as “technical” experts in the service needs for foster youth with changes in laws this need is ongoing. The IPP staff also identified that foster youth would benefit from a mentoring program to help assist with college and career transition and connection with adults of common interest.

SECTION A: Introduction

June 21, 2017

TO: Sutter County Board of Education
FROM: Dr. Baljinder Dhillon
SUBJECT: 2017-2018 Budget

Attached you will find a copy of the budget for the 2017-18 year beginning July 1, 2017, for your review and approval. We have taken a fiscally conservative position in developing this budget based on the Governors January 2017-18 budget proposal.

Governor Brown's May Revision budget proposal projects an increase in overall state revenues in 2017-18 due to "a surging stock market." Nonetheless, the Governor cautioned that the trend of increasing revenues would not continue indefinitely. He noted that a modest recession would result in large decreases in state revenues, and that proposed changes to the Affordable Care Act could have a significant negative impact on California. "Make no doubt about it," he added, "cuts are coming over the next few years."

While the May Revision increases education funding over the January proposal, we heed the Governor's warnings to be cautious. The historical volatility of state revenues, the significant economic risks on the horizon, and the known cost pressures from employer pension contribution increases all point to the need to maintain reserves and fiscal flexibility.

A significant portion of the new revenue in the May Revision is dedicated to one-time funding, but the nature of the current one-time funding proposal is dramatically different from the January proposal, and from the one-time funds in past budgets. Sutter County Superintendent of schools did not budget these one-time funds for 2017-18 and, if they materialize, will budget these funds prior to the first interim.

Sutter County Superintendent of Schools has been proactive in spending one-time dollars on one-time expenditures. Part of the ongoing plan of the County Office is to ensure that we are fiscally solvent for many years to come. We have slowly phased out programs for longer than was required to make sure districts had the time and support to implement services to students and teachers that were previously provided by the county.

This budget is a snapshot of our present fiscal status and reflects the best planning that our fiscal department and program managers have, based on today's information and assumptions. Budgets are ever changing documents that reflect the mission and goals of the county office and change as more information is available. Monthly and Interim reports will be brought to the board to show changes throughout the year.

June 21, 2017

TO: Sutter County Board of Education

FROM: Gail Osborne, Assistant Superintendent, Administration and Business Services 

SUBJECT: 2017-2018 Budget

Over the years, we have brought to you for approval conservative budgets with contingencies built in to compensate for those unforeseen proposals that could arise as we wait for an enacted state budget. The 2017-18 budget anticipates a net surplus of \$62 thousand after transferring over two million to the special reserve funds. These funds are set aside to pay for future obligations for retiree health benefits, fund future projects, and facilities.

Many categorical dollars were eliminated in the Local Control Funding Formula (LCFF) enacted in 2013-14, but the county offices' revenue was "held harmless" from the new formula. This allowed our office time to develop a plan with our regional partners and districts to phase out programs that are not included in the formula, such as the Regional Occupational Center (ROP) and Beginning Teacher Support (TCIP) over a period of a few years. Monies freed up by this phase out plan are considered one-time, as the county office will not receive any cost of living adjustments until the formula reaches our current funding level.

The addition of LCFF requires us to change the budgeting discussion to one focused on how to prioritize the use of new resources on expenditures most needed to meet the needs of all students, and especially the needs of students who are foster youth, low-income, or English language learners. These activities are described in our Local Control Accountability Plan (LCAP) and this budget includes all of the expenditures outlined in the LCAP.

Our past practice has been to build our budget based on the Governor's January estimates adjusted by the May Revision. Our multi-year projections conservatively assume the phase out of eliminated categorical programs and any known change in revenue and expenditures, and include the anticipated increases in pension liabilities. Our current year expenditures anticipate expenditures that may be re-budgeted in the first interim budget. Some examples of this are the large pathways grant that allows spending until the end of 2019, and a solar project that may only be partially completed by June 30, 2017.

As the State budget is negotiated between the Governor and legislative leaders, there may be other changes that will affect the 2017-18 budget. These changes will be reflected in your interim reports, or within 45 days of adoption of a State Budget.

This budget and supporting documents are prepared and submitted by our dedicated Internal Business Department staff. I would like to express my gratitude to Barbara Henderson, Director of Internal Business Department and her staff, Maria Crocker, Susan Miller, Laura Avelar, Dawn Heraty, Jay VanDuzer, Brenda Spannbauer, Laura Crowninshield, and Maggie Navarro for their expertise, dedication, and tireless efforts. This budget is a team effort, and I have the pleasure to present to you the fruit of their labor.

This budget reflects the decisions and priorities of the county office as a whole, each fund telling its own story. We hope you enjoy the effort that has been put into making this a meaningful document.

General Fund Financial Assumptions 2017-18

The budget projections used in this document were based on the current law known during the budget development stage. Often, the timelines to propose our budget occur before the Budget Act for the State of California State Budget is signed into law. Once signed, we will update this budget with the material changes. Until then, our general assumptions are that the County Office will continue to receive flat LCFF funding for the foreseeable future, a decrease in Federal funding for grants that are federally reduced or have ended, and an increase in local revenue for students served in county operated programs per the LCFF model. In accordance with Education Code section 16222, any material changes to the assumptions or financial data will result in a budget revision within 45 days after the state budget is enacted. The budget is also formally revised and updated at First Interim (December) and at Second Interim (March) to keep pace with changes in income and expenditures.

General Fund differences reflect all departments, including Special Education Services provided to the districts through the Special Education Local Plan Area (SELPA). Although SELPA budgets are not approved by the County Board, the total changes for SELPA, if significant, are included in the financial assumptions for informational purposes.

The amounts included in the 2016-17 Estimated Actual column of the budget are estimates based on the current year budget, adjusted only for known fluctuations in amounts expected to be unspent by year end. The Unaudited Actual Report that is presented to the Board in October will be a final accounting of actual expenditures for 2016-17.

Multi-year projections assume flat funding for LCFF and reflect any known changes to funding or expenditures for the future two years. Since the economy has steadily increased and funding for education appears to have stabilized with increasing program requirements, salary increases as well as staffing increases are included in projections.

The County Office is facing new challenges and opportunities. The major accomplishment of 2016-17 was that the County Office successfully paid off the long-term obligation for the Shady Creek Outdoor Education property, nearly 20 years early. As with any debt, paying it off early results in significant savings over the lifetime of the debt. In addition, one-time funds will help the office become more energy and technologically efficient. County Office uses and systems will be a major focus for the next few years. Further, as requirements of the County Office grow and we strive to improve our level of service, we expect the office to continue to grow in number of staff. Space issues have become a significant concern that we will be addressing over the next several years. The first step was the purchase of a new building to house part of the administrative office. In addition, the County Office has also reconfigured the main administrative building to better accommodate staff.

General Fund Revenue

Revenue is generated by various State, Federal, and Local sources as well as transfers from other funds within the County Office.

Lottery revenue is budgeted at \$189.00 per average daily attendance (ADA) This amount represents \$144.00 of unrestricted and \$45.00 restricted for educational materials. This is a conservative budget based on the School Services of California Financial Projection Dartboard. Lottery is distributed to Special Education and County Community School based on the prorated share to enhance the programs that generated the attendance.

Enrollment projections are based on historical trends adjusted for any known information on current population. The projections for 2016-17 and 2017-18 have remained relatively flat, with only slight fluctuations.

Local Control Funding Formula (LCFF) is refined at each reporting period with the most current attendance data and the latest projections from CDE.

The LCFF funds consist of Local Property Taxes, Education

Protection Act (Prop 30/Prop 55) Funds, and State Aid. Many programs previously funded through categorical dollars have been included with the funding formula to hold the County Office "harmless" and ensure that the new formula does not fund less revenue through LCFF than was apportioned through the previous methodology, which included Revenue Limit and categorical funds in the base year (2012-13).

Federal revenue is projected to increase overall by \$1,270,215 (36.6%) from the current year budget. This significant increase is substantially the result of a WIOA Temporary Job Creation grant received at One Stop.

State revenue is projected to decrease by \$5,402,527 (-36.2%). The majority of this decrease comes from removal of short-term or one-time grants such as Pathways and College Readiness.

Local revenues are projected to increase by \$501,354 (4.3%). Special Education costs that are billed to districts participating in the SELPA as well as contracted services are expected to increase substantially. Adding to this is an increase for technology costs.

Other Financing Sources – Interfund Transfers In are projected to decrease by \$4,129,562 (-97.20%). These transfers are used to move money between general and other funds. In 2016-17, transfers increased substantially from the Special Revenue Fund (Fund 17) to the General Fund (Fund 01) to repay the long-term debt instrument. In 2017-18, the County Office expects Transfers In to revert to historic patterns.

General Fund Expenditures

As projected revenues are decreasing for 2017-18, expenditures in the general fund are also projected to decrease. As previously planned, spending down reserves and one-time funds have allowed us to continue supporting programs through the transition to the LCFF funding model. Since most programs have nearly exhausted those balances, the County Office is reviewing its programs and services for sustainability.

As we implement our Local Control Accountability Plan, the County Office needs to provide even greater levels of service and support in many areas including

fiscal oversight, accountability, information technology, staff development, curriculum & instruction, student programs and human resources.

By managing the County Office resources, the agency has built reasonable reserves and a shared understanding of the challenges ahead. Programs have been asked to be prudent and conservative with resources in order to manage reserves. While Proposition 30/55 has provided some relief from previous years' trigger cuts, overall funding is still far below where it was in 2007-08. We therefore continue to be cautious preparing our multi-year projections.

Categorical and Restricted Program expenditures will not exceed current revenue and/or prior-year carry-over funds without approval of the Superintendent. We have held discussions with multi-county programs that have been affected by the LCFF calculations. The current budget assumes that the ROP program will continue to spend one-time ending balance to help offset program funding cuts. This planned spending of reserves will be reduced each year until the program has been phased back to the

districts. The Tri-County Induction Program (previously known as BTSA) similarly phased out over a period of time. Districts no longer receive funds from the County Office to offset costs of providing the service. Moving forward, the County Office is focusing on becoming more self-sustaining than reliant on LCFF revenue.

Salaries and Benefits

Certificated salaries have increased by \$169,965 (2.1%) from 2016-17 Estimated Actuals. Most of the increase can be traced to increases in Special Education staff. Education Services and Feather River Academy have experienced a decrease in staff.

Classified salaries have increased by \$1,308,113 (12.6%). While Special Education continues to see increases in classified staff, the most significant increase to salary

costs is from One Stop receiving the Temporary Job Creation grant. Increased staff for the County Office is offset by program reductions for Pathways and Educator Effectiveness.

Employer paid benefit costs increased as adjustments were made to reflect actual staffing and employee benefit options. Retirement incentive costs incurred in 2015-16 have already substantially been paid, reducing overall benefits costs. However, certificated staff received a \$125 per month increase to the benefits cap.

Supplies

The overall decrease in program budgets for supplies is \$162,267 (-14.7%). The decrease is mainly attributed to the decreases in Pathways funding for the Feather River Academy as well as Shady Creek moving some of its supply costs permanently to Services.

Services and Other Operating Expenditures

Budgets for services and other operating expenditures are projected to decrease by \$5,348,814 (-51.1%). Services and other operating expenditure changes are the result of a decrease in pass through funds set aside for districts participating in Pathways as well as a decrease in contracted Special Education services for various classroom needs. In addition, reductions in Mental health and Medi-Cal revenue impact expected service/contract costs.

Capital Outlay

The \$1,406,936 (-77.6%) decrease is substantially the result of removing costs incurred in 2016-17 for the administrative building reconfiguration and SELPA construction costs. Proposition 39 projects planned for the budget year will be added to the budget at the First Interim period.

Other Outgo

The total decrease of \$4,901,952 (-96.0%) is the removal of the long-term debt payment for the Shady Creek Outdoor Education center.

Other Financing Sources – Interfund Transfers Out

Transfers Out have increased by \$1,025,172 (68.5%) for a transfer to Fund 67 for retiree health benefits. Other Post-Employment Benefits (OPEB) is an up and coming topic, which will result in reporting an entity's net OPEB obligation as a liability on its balance sheet. The County Office will consider how best to manage the impact of new OPEB regulations.

The Indirect Cost Rate (ICR) for the budget year is **9.52%**.

Programs will be charged the full state-approved rate unless program guidelines prohibit the full rate or special arrangements for a cap have been arranged with the Superintendent. The negotiated or capped ICR for 2017-18 are as follows:

- **Special Ed.** - 2/3 of approved rate not to go below 43 or above 73.
- **WIOA** - Not to exceed 73.
- **TCIP** - Approved rate on all expenditures except stipend payments to districts.
- **ROP** - Approved rate on all expenditures except sub-agreement expenditure reimbursements to districts.

Fund Balance

The County Office is planning to receive \$62,041.00 more than it will spend in the current year. The County Office has had the opportunity to use one-time funds to improve infrastructure and pay the outstanding debt. Specifically, the Proposition 39 audit provided an outline for standard clean energy improvements, which will be covered by Proposition 39 funding. In addition, the audit included suggestions for even further improvement including solar solutions. The County Office is striving to better its conditions and reduce its impact on the environment by planning to use one-time revenue to invest in these solutions. Further, the County Office had been setting aside money in Fund 17. The County Office successfully paid off the long-term debt in 2016-17, nearly 20 years early. Finally, the County Office has grown substantially with the exponential growth in education standards and support needed from this office, which has made space an issue. The County Office is working to address limited space in both the short and long term. Recently, the County Office purchased a building to house some of the administrative staff and has begun reconfiguring the main administrative building to best accommodate staff. In addition, the County Office is committed to setting aside funds each year for the future construction.

Proposition 30 included two temporary tax increases:

A .25% increase in the sales and use tax for four years: 2013 through 2016,

An increase in the income tax rate for taxable incomes of over \$250,000 for seven years: 2012 through 2018

Subsequently, voters approved Proposition 55 in 2016, which allowed the sales tax increase to expire in 2016 while extending the increased income tax rates through 2030.

The revenues from these tax increases are deposited into the EPA , and the funds are released to K-14 school agencies.

EPA funds are not additional funds for local school agencies. Rather, the EPA is another source of general purpose funds—similar to property taxes—that offsets what would otherwise be state aid in the apportionments issues to local school agencies.

Even though these are general purpose funds, there are some requirements that must be met.

- 1) Each year local school agencies are required to discuss the plan to spend EPA funds in a public meeting of the governing board, and the funds cannot be used for any administrative costs.
- 2) Upon closing the books each year, each local school agency is required to post on its website a report of the amount of EPA funds received for the year along with how the funds were used.

Our external audit firm will be required to verify that the EPA funds were used appropriately in accordance with the requirements of Proposition 30.

SECTION C: Lottery

Lottery Educational Apportionment per ADA

State Lottery Income is used as one-time income to supplement the educational program. The law authorizing the lottery requires school districts, including charter schools, to use lottery funds "exclusively for the education of pupils and students". Since 1997-98, school districts have been required to use 50% of the growth in Lottery allocations for the purchase of instructional materials. In **2017-18**, it is projected that California school districts will receive **\$144.00** per ADA in unrestricted funds **and \$45.00** per ADA restricted instructional materials.

Each program that receives Lottery revenue is required to budget the dollars for one-time expenditures. This money is used to offer additional monetary support for the educational programs that Sutter County Superintendent of Schools provides to the districts in the county and regional partners.

The **2017-18** budget includes an estimate of **\$78,921.00** in Lottery revenue. This revenue represents approximately **0.2191791%** of the total budgeted revenue in the general fund, yet it provides an additional source of unrestricted revenue to support the educational programs.

The Child Development Fund may be used only for expenditures for the operation of child development programs.

Child development programs that are not subsidized by state or federal funds and that are operated with the intent of recovering the costs of the program through parent fees or other charges to users, if significant, should be accounted for in an Enterprise Fund.

We currently receive Local Child Care Planning and Child Development Salary Retention grants that are jointly operated by Yuba and Sutter counties. Yuba County Office of Education employs staff that provides service to both counties.

1B-3. Comparison of County Office Projected County Operated Programs ADA to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - Projected ADA for county operated programs is above the standard for one or more of the budget or two subsequent fiscal years. Provide reasons why the projection(s) exceed the standard, a description of the methods and assumptions used in projecting ADA, and what changes, if any, will be made to bring the projected ADA within the standard.

Explanation:
(required if NOT met)

County operations grant ADA are expected to remain relatively flat. The COE is in the lowest tier for funding and the next jump is at 30,000 ADA. The COE is far from reaching that next tier.

2. CRITERION: LCFF Revenue

STANDARD: Projected local control funding formula (LCFF) revenue for any of the budget year or two subsequent fiscal years has not changed from the prior fiscal year by more than the change in population, plus its cost-of-living adjustment (COLA)¹ plus or minus one percent.

For excess property tax counties, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.

¹ County offices that are already at or above their LCFF target funding level receive no gap funding. These county offices have a COLA applied to their LCFF target, but their year-over-year revenue increase might be less than the statutory COLA due to certain local factors and components of the funding formula.

2A. County Office's LCFF Revenue Standard

Indicate which standard applies:

- LCFF Revenue
- Excess Property Tax/Minimum State Aid

The County office must select which LCFF revenue standard applies.

LCFF Revenue Standard selected: LCFF Revenue

2A-1. Calculating the county Office's LCFF Revenue Standard

DATA ENTRY: Section I, enter data for all fiscal years. Section II, enter data in Step 2b1 for all fiscal years. Section III, all data are extracted or calculated. Section IV, enter data in Step 1a for the two subsequent fiscal years, Step 2b1, Step 2b3, and Step 2b4 for all fiscal years. All other data are extracted or calculated.

NOTE: Enter data in Section I, Line c1 and Section IV only if the county office has charter school funded county program ADA corresponding to financial data reported in Fund 01. Regardless of the standard selected, criterion 2A-1 must be completed to obtain the total change in population and funding level.

Projected LCFF Revenue

Select County Office's LCFF revenue funding status:

- At Target If status is at target, then COLA amount in Step 2b2 is used in Step 2c in Sections II and III.
 - Hold Harmless If status is hold harmless, then amount in Step 2c is zero in Sections II and III.
- Status: Hold Harmless

6C. Comparison of County Office Deficit Spending to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - Unrestricted deficit spending has exceeded the standard percentage levels for two or more of the previous three fiscal years. Provide reasons for the deficit spending, a description of the methods and assumptions used in balancing the unrestricted budgets, and what change, if any, will be made to ensure that the subsequent budgets are balanced within the standard.

Explanation:
(required if NOT met)

The COE is still setting aside funds for new construction and OPEB obligations at \$2 million per year. Discussions occurring now regarding rate at which COE will continue to set aside funds and cause a deficit. Also discussions in place regarding the static nature of LCFF funding and solutions necessary for long-term sustainability.

7. CRITERION: Fund Balance

STANDARD: Budgeted beginning unrestricted county school service fund balance has not been overestimated for two out of three prior fiscal years by more than the following percentage levels:

1.3%	\$5,866,000	to \$14,662,999
1.0%	\$14,663,000	to \$65,989,000
0.7%	\$65,989,001	and over

¹ Percentage levels equate to a rate of deficit spending which would eliminate recommended reserves for economic uncertainties over a three year period.

NOT MET - The projected contributions from the unrestricted county school service fund to restricted county school service fund programs have changed by more than the standard for one or more of the budget or subsequent two fiscal years. Identify restricted programs and amount of contribution for each program and whether contributions are ongoing or one-time in nature. Explain the county office's plan, with timeframes, for reducing or eliminating the contribution.

Explanation: (required if NOT met) Contributions decreased from 16-17 for a number of reasons: 1) the COE no longer contributes to Shady Creek to pay for the long-term debt obligations, 2) contributions to ROP have been systematically reduced because of changes in funding and program, 3) the retirement incentive has been substantially paid off.

S8. Status of Labor Agreements

Analyze the status of employee labor agreements. Identify new labor agreements, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

If salary and benefit negotiations are not finalized at budget adoption, upon settlement with certificated or classified staff:

The county office of education must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the California Department of Education (CDE) with an analysis of the cost of the settlement and its impact on the operating budget.

The CDE shall review the analysis relative to the criteria and standards, and may provide written comments to the president of the governing board and the county superintendent of schools.

ADDITIONAL FISCAL INDICATORS

The following fiscal indicators are designed to provide additional data for reviewing agencies. A "Yes" answer to any single indicator does not necessarily suggest a cause for concern, but may alert the reviewing agency to the need for additional review.

DATA ENTRY: Click the appropriate Yes or No button for items A1 through A8 except item A3, which is automatically completed based on data in Criterion 1.

- A1.** Do cash flow projections show that the county office will end the budget year with a negative cash balance in the county school service fund?
- A2.** Is the system of personnel position control independent from the payroll system?
- A3.** Is the County Operations Grant ADA decreasing in both the prior fiscal year and budget year? (Data from Criterion 1, Sections 1B-1 and 1B-2, County Operations Grant ADA column, are used to determine Yes or No)
- A4.** Are new charter schools operating in county office boundaries that impact the county office's ADA, either in the prior fiscal year or budget year?
- A5.** Has the county office entered into a bargaining agreement where any of the budget or subsequent years of the agreement would result in salary increases that are expected to exceed the projected state funded cost-of-living adjustment?
- A6.** Does the county office provide uncapped (100% employer paid) health benefits for current or retired employees?
- A7.** Does the county office have any reports that indicate fiscal distress?
(If Yes, provide copies to CDE)
- A8.** Have there been personnel changes in the superintendent or chief business official positions within the last 12 months?

When providing comments for additional fiscal indicators, please include the item number applicable to each comment.

Comments:
(optional)

A2 Position control does not drive payroll. Many checks and balances are in place to ensure that the two are in agreement. Both position control and payroll are on the same financial system (QSS). A4 There a few new charter schools that increase the ADA for both Special Education and the countywide ADA. A5 The county office settled with CTA in May for an increase higher than projected COLA.

Proposition 30 included two temporary tax increases:

A .25% increase in the sales and use tax for four years: 2013 through 2016,

An increase in the income tax rate for taxable incomes of over \$250,000 for seven years: 2012 through 2018

Subsequently, voters approved Proposition 55 in 2016, which allowed the sales tax increase to expire in 2016 while extending the increased income tax rates through 2030.

The revenues from these tax increases are deposited into the EPA , and the funds are released to K-14 school agencies.

EPA funds are not additional funds for local school agencies. Rather, the EPA is another source of general purpose funds—similar to property taxes—that offsets what would otherwise be state aid in the apportionments issues to local school agencies.

Even though these are general purpose funds, there are some requirements that must be met.

- 1) Each year local school agencies are required to discuss the plan to spend EPA funds in a public meeting of the governing board, and the funds cannot be used for any administrative costs.
- 2) Upon closing the books each year, each local school agency is required to post on its website a report of the amount of EPA funds received for the year along with how the funds were used.

Our external audit firm will be required to verify that the EPA funds were used appropriately in accordance with the requirements of Proposition 30.

Re: Sutter County Investment Portfolio

Attached is a copy of Sutter County's Investment Portfolio as of April 30, 2017. This schedule includes all short-term, mid-term and long-term investments held at the conclusion of business on the final day of the month.

As Treasurer-Tax Collector, I certify that this document reflects the government agencies' pooled investments and that all investments are in compliance with the County of Sutter Investment Policy.

The combined funds in the county treasury total \$293,942,833 and will provide sufficient cash flow liquidity to meet estimated pooled treasury expenditures for the next six months.

Invested treasury funds total \$287,543,129 with \$62,295,080 under the management of the Local Agency Investment Fund and California Asset Management Program. The Bank of New York, which provides third-party safekeeping services to Sutter County, furnishes market value data. The dollar-weighted average maturity of invested funds is 1,070 days.

Investments are selected based on criteria contained in the Sutter County Investment Policy, which emphasizes safety, liquidity, yield and diversification. Therefore, the interest rates will fluctuate and the types of investments will vary depending upon county needs and market availability on a particular day.

Respectfully submitted,

PRESENTING TO BOARD:

BACKGROUND AND SUMMARY INFORMATION:

Other postemployment benefits (OPEB) are benefits provided to retirees other than pensions. SCSOS's only OPEB commitment is for retiree health care. Historically, government agencies have funded these costs on a "pay as you go" basis. However, the Governmental Accounting Standards Board's (GASB) Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, requires that government agencies begin recognizing (accruing) the cost of OPEB as promised benefits are being earned. SCSOS has been investing in the county treasury for the future cost of these benefits. The county treasury is currently earning 1.5%.

We would like to discuss putting more irrevocable trust into some funds.

Sutter County Superintendent of Schools

Why Establish an Irrevocable Trust?

Sutter County Superintendent of Schools' actuarial liability for retiree insurance is over \$3.3 million. Fund 67 currently has around \$1.5 million.

History:

Other postemployment benefits (OPEB) are benefits provided to retirees other than pensions. SCSOS's only OPEB commitment is for retiree health care. Historically, government agencies have funded these costs on a "pay as you go" basis. However, the Governmental Accounting Standards Board's (GASB) Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, requires that government agencies begin recognizing (accruing) the cost of OPEB as promised benefits are being earned. SCSOS has been investing in the county treasury for the future cost of these benefits. The county treasury is currently earning 1.5%.

Why Prefund:

- Investment return assumptions, known as discount rate assumptions, will be higher, making the annual required contribution and unfunded liability lower. More diverse investment options are available improving the annual return.
- Prefunding enables you to make actuarially determined periodic contributions to partially or completely fund your future obligations
- Earnings on assets reduce employer contributions
- May prevent your net OPEB obligation from becoming a significant liability on your balance sheet
- Enhances financial security for retirees

Benefits of Investing with CalPERS:

- Over 75 years experience in administering employer-sponsored plans
CalPERS has administered pension plans for public employees since 1932.
- A history of exceptional risk-adjusted investment performance
CalPERS is the largest public pension system in the U.S., managing assets for more than 3,000 California employers.
- Low Total Cost
The California Employers Retiree Benefits Trust (CERBT) is a public sector, not-for-profit OPEB service provider, operating in a competitive marketplace. That is good news for participating employers. The CERBT will provide trust administration and investment management for a lower cost.

The CERBT is a self-funded program, in which the participating employers pay for the program costs. In this regard, the CERBT is exactly like the Public Employees Retirement Fund (PERF). Fees vary from year to year and are determined at the end of the operating year.

As an agency of the State of California, CalPERS is required to cover all operational costs and to retain NO profit. As part of their mission, CalPERS seeks to provide the lowest cost service to all participating agencies, irrespective of size or financial resources. For these reasons, the CalPERS OPEB trust is organized to charge a single cost rate to all participating agencies. The cost charged to participating employers is based on the average daily balance of assets. Although costs will vary from year to year, generally as the trust assets continue to grow, the annual cost rate charged to each participating employer should decrease. During the first two years of CERBT operation, the total cost to participating employers was less than 10 basis points per year. As the CERBT program matures, the expected average annual total cost is about 20 basis points.

Program Costs are compiled at the year end and charged to the CERBT program. These costs include items like investment management, legal, actuarial, and accounting costs and are allocated to each employer based on the average daily balance of assets held throughout the entire year. Since we won't know the total actual costs until the end of each year, and because the allocation of those costs is based on the average daily balances of all assets contained within the CERBT fund, the actual cost rate will not be known until the end of the year.

There are no outside investment or administrative costs. All costs charged to the CERBT are controlled under the budgetary processes in place at CalPERS and are closely monitored. There will be no separate charges for administration, trust management, or investment management. The costs for all of these activities are included.

What keeps the CERBT from overcharging the participating employers? Competition; public sector law and regulations; active oversight from an Administrative Board, the composition of which is set by statute to represent all stakeholders; the institutional transparency legally required of public governance meetings and public records; and the fact that CalPERS cannot retain a profit.

Getting Started

- Update actuarial valuation using assumptions prescribed by CalPERS
- Complete Agreement and Election to Prefund Other Post Employment Benefits
- Delegation of Authority to Request Disbursements
- Transfer a portion of the funds in Fund 67 to the trust

INDEPENDENT STUDY PROGRAM (ISP)

(Feather River Academy)

Sutter County Superintendent of Schools operates programs for students in need of an alternative academic experience. In order to meet the unique needs of each student, Sutter County Superintendent of Schools operates a County Community School (Feather River Academy), ~~an Opportunity Program,~~ and an Independent Study Program. The regulations contained in this document are operating guidelines for the administration of Feather River Academy's Independent Study Program and will serve to supplement and augment the Independent Study Operational Manual. The Independent Study Operations Manual gives the following definition and overview of purpose of Independent Study:

INDEPENDENT STUDY

Independent study is an alternative to classroom instruction consistent with ~~a school district's the current~~ course of study and is not an alternative curriculum. It provides individual students with a choice of ways to acquire the values, skills, and knowledge all students should gain as verified in a written agreement. Independent Study can be part of, be separate from, or be in addition to a regular classroom instruction program.

OVERVIEW AND PURPOSE

Independent Study is an *instructional strategy* (not a categorical program) that responds to an individual's needs and styles of learning. A contractual agreement is drawn among the certificated teacher as the general instructional supervisor, the student, and, if a minor, his or her parent, guardian, or caregiver and any other persons who may be directly involved in the student's learning program. The written agreement sets educational objectives and addresses activities and personnel to be involved, resources to be used, and a method to evaluate successful completion of the agreement. The agreement must adhere to school board policy and legal requirements.

Independent Study is an optional educational alternative, available to students from kindergarten through high school meant to respond to the students specific educational needs, interest, aptitudes, and abilities within the confines of school board policy. As a recognized alternative to regular classroom study, *the Independent Study option is expected to be equal to or superior in quality to classroom instruction.*

Students age 21 or older, and students age 19 or older who have not been continuously enrolled in school since their 18th birthday, may participate in independent study only through the adult education program for the purpose of enrolling in courses required for a high school diploma by Education Code 51225.3 or the Governing Board. The student may take a full course of study in Independent Study and participate in support, tutoring, or other alternative offerings at the County Community School Program in order to best fit the individual educational needs of the student.~~

STUDENT EXIT FROM INDEPENDENT STUDY

The student or parent/guardian/caregiver may request a classroom option at any time. The teacher, counselor, or administrator will make every effort to counsel the student and parent/guardian/caregiver on the most appropriate action.

The school may request a change because the student either has not met the obligations of the Independent Study agreement, or is no longer meeting the criteria for participation, or the student is inappropriately placed (i.e. unable to work independently, as evidenced by poor attendance, incomplete assignments, etc). The school will make appropriate effort to inform the student and parent/guardian/caregiver of the change in placement and of the opportunity to meet with a school administrator to discuss options prior to the change of placement.

INDEPENDENT STUDY

The Governing Board authorizes independent study as an optional alternative instructional strategy for eligible students whose needs may be best met through study outside of the regular classroom setting. Independent study shall offer a means of individualizing the educational plan to serve students who desire a more challenging educational experience, whose health or other personal circumstances make classroom attendance difficult, who are unable to access course(s) due to scheduling problems, and/or who need to make up credits or fill gaps in their learning. As necessary to meet student needs, independent study may be offered on a full-time basis or on a part-time basis in conjunction with part- or full-time classroom study.

(cf. 5147 - Dropout Prevention)
(cf. 6011 - Academic Standards)
(cf. 6143 - Courses of Study)
(cf. 6146.1 - High School Graduation Requirements)
(cf. 6146.11 - Alternative Credits Toward Graduation)
(cf. 6172 - Gifted and Talented Student Program)
(cf. 6200 - Adult Education)

The Superintendent or designee may provide a variety of independent study opportunities, including, but not limited to, through a program or class within a comprehensive school, an alternative school or program of choice, a charter school, a home-based format, and an online course.

(cf. 0420.4 - Charter School Authorization)
(cf. 6181 - Alternative Schools/Programs of Choice)

A student's participation in independent study shall be voluntary. Students participating in independent study shall have the right, at any time, to enter or return to the regular classroom mode of instruction. (Education Code 51747; 5 CCR 11700)

Parents/guardians of students who are interested in independent study shall contact the Superintendent or designee. The Superintendent or designee shall approve independent study for an individual student only upon determining that the student is prepared to meet the requirements for independent study and is likely to succeed in independent study as well as or better than he/she would in the regular classroom setting.

The minimum period of time for any independent study option shall be five consecutive school days.

Policies and Regulations Manual Sutter County Board of Education

Series 6000- Instruction

Written Agreements

The Superintendent or designee shall ensure that a written master agreement and, as appropriate, a learning agreement for students participating in course-based independent study exist for each participating student as prescribed by law. (Education Code 51747, 51749.5)

The master agreement shall specify the length of time in which each independent study assignment must be completed. Because excessive leniency in the duration of independent study assignments may result in a student falling behind his/her peers and increase the risk of dropping out of school, independent study assignments shall be no more than one week for all grade levels and types of program. However, when necessary based on the specific circumstances of the student's approved program, the Superintendent or designee may allow for a longer period of time between the date an assignment is made and when it is due, up to the termination date of the agreement.

An evaluation shall be conducted to determine whether it is in a student's best interest to remain in independent study whenever the student misses three assignments, unless the student's written agreement specifies a lower or higher number of missed assignments based on the nature of the assignments, the total number of assignments, and/or other unique circumstances.

Student-Teacher Conferences

Supervising teachers should establish an appropriate schedule for student-teacher conferences in order to help identify students falling behind in their work or in danger of failing or dropping out of school. Teachers are expected to monitor student progress and work closely with each student to determine the amount and type of contact needed for the student to be successful in the program.

Missing appointments with the supervising teacher without valid reasons may trigger an evaluation to determine whether the student should remain in independent study.

BACKGROUND AND SUMMARY INFORMATION:

The following policies are being presented for a first reading by the Sutter County Board of Education:

BB 9323 – Meeting Conduct

**Policies and Regulations Manual
Sutter County Board of Education**

Series 9000 – Board Bylaws

Meeting Conduct

The County Board of Education endeavors to conduct its business efficiently and in a manner that promotes a full and fair consideration of the issues before it and allows for meaningful participation of members of the public.

Meeting Procedures

All County Board meetings shall begin on time and shall be guided by an agenda prepared in accordance with Board bylaws and posted and distributed in accordance with the Ralph M. Brown Act (open meeting requirements) and other applicable laws.

The County Board president shall conduct meetings in accordance with County Board bylaws and approved meeting procedures.

The County Board believes that late night meetings discourage public participation, can affect the County Board's decision-making ability, and can be an unnecessary burden on Board members, the County Superintendent, and his/her staff. Regular Board meetings shall be adjourned at the time, if any, set by the County Board at the annual organizational meeting.

Quorum and Abstentions

A majority of the members of the County Board shall constitute a quorum for the transaction of business. (Education Code 1013)

On a call by any County Board member, a voice vote shall be taken upon any proposition and the vote shall be recorded in the minutes. (Education Code 1015)

Unless otherwise provided by law, affirmative votes by a majority of all the membership of the County Board are required to approve any action under consideration, regardless of the number of members present.

The County Board believes that when no conflict of interest requires abstention, its members have a duty to vote on issues before them. When a member abstains, his/her abstention shall not be counted as an affirmative vote for purposes of determining whether a majority of the membership of the County Board has taken action.

**Policies and Regulations Manual
Sutter County Board of Education**

Series 9000 – Board Bylaws

If a vacancy exists on the County Board, whenever any provisions of the Education Code require unanimous action of all or a specific number of the members, the vacant position(s) shall be not be counted for purposes of determining the total membership constituting the County Board.

Public Participation

Members of the public are encouraged to attend County Board meetings and to address the County Board concerning any item on the agenda or within the County Board's jurisdiction. So as not to inhibit public participation, persons attending County Board meetings shall not be required to sign in, complete a questionnaire, or otherwise provide their name or other information as a condition of attending the meeting.

In order to conduct business in an orderly and efficient manner, the County Board requires that public presentations to the County Board comply with the following procedures:

1. The County Board shall give members of the public an opportunity to address the County Board on any item of interest to the public that is within the subject matter jurisdiction of the County Board, either before, during, or after the County Board's consideration of the item. (Government Code 54954.3)
2. At a time so designated on the agenda at a regular meeting, members of the public may bring before the County Board matters that are not listed on the agenda. The County Board shall take no action or discussion on any item not appearing on the posted agenda, except as authorized by law. (Government Code 54954.2)
3. Without taking action, County Board members or county office of education (COE) staff members may briefly respond to statements made or questions posed by the public about items not appearing on the agenda. Additionally, on their own initiative or in response to questions posed by the public, a County Board or COE staff member may ask a question for clarification, make a brief announcement, or make a brief report on his/her own activities. (Government Code 54954.2)

Furthermore, the County Board may provide a reference to staff or other resources for factual information, ask staff to report back to the County Board at a subsequent meeting concerning any matter, or take action directing staff to place a matter of business on a future agenda. (Government Code 54954.2)

**Policies and Regulations Manual
Sutter County Board of Education**

Series 9000 – Board Bylaws

4. The County Board need not allow the public to speak on any item that has already been considered by a committee composed exclusively of County Board members at a public meeting where the public had the opportunity to address the committee on that item. However, if the County Board determines that the item has been substantially changed since the committee heard the item, the County Board shall provide an opportunity for the public to speak. (Government Code 54954.3)

5. A person wishing to be heard by the County Board shall first be recognized by the president and shall then proceed to comment as briefly as the subject permits.

Individual speakers shall be allowed three minutes to address the County Board on each agenda or nonagenda item. The County Board shall limit the total time for public input on each item to 20 minutes. With County Board consent, the president may increase or decrease the time allowed for public presentation, depending on the topic and the number of persons wishing to be heard. The president may take a poll of speakers for or against a particular issue and may ask that additional persons speak only if they have something new to add.

6. The County Board president may rule on the appropriateness of a topic. If the topic would be more suitably addressed at a later time, the president may indicate the time and place when it should be presented.

7. The County Board shall not prohibit public criticism of its policies, procedures, programs, services, acts, or omissions. (Government Code 54954.3)

To protect against litigation, the safest option is for the County Board to place no content restriction on public comments during the County Board meeting.

8. The County Board may not prohibit public criticism of persons employed directly by the County Board.

Whenever a member of the public initiates specific complaints or charges against a COE employee, the County Board president shall inform the complainant that employment matters are the jurisdiction of the County Superintendent and shall advise the complainant to address his/her complaint to the County Superintendent using the appropriate complaint procedure.

9. The County Board president shall not permit any disruption or willful interruption of County Board meetings. Persistent disruption by an individual or group shall be grounds for the president to terminate the privilege of addressing the County Board.

**Policies and Regulations Manual
Sutter County Board of Education**

Series 9000 – Board Bylaws

The County Board may remove disruptive individuals and order the room cleared if necessary. In this case, members of the media not participating in the disturbance shall be allowed to remain, and individuals not participating in such disturbances may be allowed to remain at the discretion of the County Board. When the room is ordered cleared due to a disturbance, further proceedings shall concern only matters appearing on the agenda. (Government Code 54957.9)

When such disruptive conduct occurs local law enforcement shall be contacted.

Recording by the Public

The County Board shall designate locations from which members of the public may broadcast, photograph, or tape record open meetings without causing a distraction.

If the County Board finds that noise, illumination, or obstruction of view related to these activities would persistently disrupt the proceedings, these activities shall be discontinued or restricted as determined by the County Board. (Government Code 54953.5, 54953.6)
