2017-20 Plan Summary

THE STORY

Briefly describe the students and community and how the LEA serves them.

Feather River Academy (FRA), Fully Accredited by the Schools Commission of the Western Association of Schools and Colleges, is an alternative school established by the Sutter County Superintendent of Schools to provide specialized education services for students who require an alternative education program. Feather River Academy consists of a county community school including an Independent Study Program (ISP). Feather River Academy and the Independent Study Program are housed on a campus next door to the Sutter County Superintendent of Schools Office. FRA is an innovative alternative education program offering individualized educational options in a safe, challenging, and need-fulfilling environment. Students are encouraged to acknowledge responsibility in both the local and global community. Students prepare for a successful quality life according to their individual needs. Students in grades 7 – 12 who are at risk of being expelled, have been expelled, or are referred by courts or probation are served by Feather River Academy. The Independent Study Program is an option for FRA students who demonstrate a high degree of self-motivation and prefer a self-guided program under the guidance of a credentialed teacher. Independent study is an alternative to classroom instruction for at risk youth and is consistent with the county office’s course of study and not an alternative curriculum. It provides individual students with a choice of ways to acquire the values, skills and knowledge all students should gain as verified in a written agreement. Independent study can be a part of, be separate from, or be in addition to a regular classroom program. All programs work closely with students and parents to provide a focused instructional program that leads to graduation or eventual return to their home school. The enrollment at FRA fluctuates during the school year between 50-100 students. Data collected is not always truly reflective due to the small sample size of participants, especially in subgroups. Additionally, students who enroll in FRA are typically not prepared for the rigor of AP courses however, if needed AP course work can be accessed for students who demonstrate need but it is not a direct action or service. FRA doesn’t expel pupils so there are not actions or services to address pupil expulsion rate.

LCAP HIGHLIGHTS

Identify and briefly summarize the key features of this year's LCAP.

- Purchase of Chromebooks and pilot program of Google Classroom and G-Suite at FRA.
- Credit recovery options expanded at FRA to include Odysseyware.
- Trauma informed care practice training and progress towards implementation of restorative justice practices at FRA.
- Mentor program to support positive relationships and connections to adults for Foster Youth.

REVIEW OF PERFORMANCE

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

FRA had a new principal this year as well as several new staff members. The staff has come together under the theme of "Setting the Conditions for Success" with a focus on relational capacity, adaptive capacity and aspirational capacity. The staff has used this as the driving force for their work this year. This theme has allowed the staff to engage with stakeholders in new ways. Home visits have increased in the 16-17 school year with the intent of getting students to school by providing transportation. The school has increased student engagement by offering CTE Agriculture courses and reinventing the school greenhouse. Sixty Google Chromebooks were purchased and Google classroom was implemented to provide students the opportunity to learn beyond the classroom. Aeries Analytics was purchased and the staff has begun the work to create early warning indicators to identify students who have a large number of discipline referrals or are falling further behind on credits. Additionally, the staff has received training on Trauma Informed practices and will be sending the entire staff to training in the summer of 2017 in the Nurtured Heart Approach as a way to continue to provide opportunities for staff and student to focus on restorative practices vs traditional discipline approaches. Staff assigned specifically to monitor the needs of English Learners and Foster Youth have allowed those students to have a single point of contact if the need arises and the staff can provided needed mentorship and support. Due to the transient nature of students who attend FRA it is difficult to determine overall growth as the student population changes. It has been more beneficial for the staff to make the relational connections with students to support needs at the point and time they are enrolled at FRA.

GREATEST PROGRESS

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the LEA received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

GREATEST NEEDS

The students at Feather River Academy (FRA) come to school with needs beyond academic concerns. We have noticed an increase in the need for mental health services, homeless services and services to support families beyond educational needs. The need for increased services has led to discussions about how to serve students whose needs are great within the school day. In addition to the environmental challenges, students are often severely credit deficient, missing basic skills and are often on probation or have other legal mandates. FRA has identified, with the input of stakeholders, the need to develop a comprehensive system of support for all students. FRA is using the Multi-tiered Systems of Support (MTSS) framework to align behavior and academic supports to ensure that all students are served based on an aligned data collection system. Curricular materials and instruction along with behavioral supports will be aligned to the MTSS framework as well as data collection. The need to support students who transition out of FRA has also been identified. FRA will be exploring a more comprehensive process to assist students during the 17-18 school year with its focus on the update to the County Plan for Expelled Youth.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

PERFORMANCE GAPS

Academic Indicators: (Priorities 2 and 4)

Data is not provided regarding student performance by subgroup in core content areas via the California Dashboard for Alternative Programs. Local Data is available for both English Language Arts and Mathematics. A review of the local 2016 data indicated the following performance for students in ELA and math by selected subgroups on the CAASPP assessments.

The local data indicates gaps in the areas of mathematics, English Language Arts and support for English learners, foster youth, and socio-economically disadvantaged students. These gaps are often more difficult to address when student behavior gets in the way of learning. Additionally, the transitory nature of students in and out of FRA makes it difficult to have data that is specific to the current student population. Goals will be written to address the academic as well as the behavioral and social emotional needs of students at FRA.

Chronic Absenteeism: (Priority 5)

Attendance is a concern at FRA with a majority of all subgroups considered chronically absent. This data is not a surprise as many of our students are referred to us for attendance/SARB issues. The use of an attendance officer has provided additional support and he has conducted 115 home visits to address the issue of attendance and provide immediate transportation to school for students. FRA will continue to focus efforts on attendance by providing attendance incentives as well as increasing student engagement and relational capacity with students.

English Learner Progress (Priority 4)

The progress of our English Learners is of concern. The staff will continue to seek training and implement strategies to improve their academic achievement. The staff will also focus on reducing the number of long term English Learners and continue to provide additional staff one-on-one support to EL's, RFEP's and LTEL's.

Suspension Rate(Priority 6)

Suspension data is tracked in our student information system. For 2016/17 there were 47 students that committed an offense that resulted in 99 days of suspension. In 2015/16 FRA had 61 students that committed 147 offenses that resulted in 131 days of suspension. While this demonstrates a decrease in the number of students and days of suspension, this is an area of concern. Staff is continuing to pursue alternatives to suspension. The staff at FRA has participated in training on Trauma Informed Care, Capturing Kids Hearts and A Nurtured Heart Approach. However, there is still a concern that the overall disciplinary practices are punitive and are not restorative. This is an area of need for FRA that will be a focus for the 2017-18 school year and FRA will add a coach that will focus on the implementation of The Nurtured Heart Approach to assist with reframing practice in and out of the classroom. Practices will be aligned to the Multi-tiered Systems of Support Framework (MTSS) to ensure that all students are served.

School Climate: (Priority 6)

The staff at FRA is working hard to build relational capacity with all students. This is an area of need as most students that come to FRA have not had a positive school experience and often have environmental factors such as drug and alcohol use as well as mental health concerns such as chronic sadness and suicide. The most recent California Healthy Kids Survey Data (CHKS) reports the following in several key indicators.

2016-17 California Healthy Kids Survey

Indicator	%
Current Alcohol and Drug Use (past 30 days)	57
Experienced chronic sadness/hopelessness (past 12 months)	39
Considered Suicide (past 12 months)	23
Been Drunk or "high" on drugs at school, ever	48
Academic motivation	16
Truant more than a few times	29
School meaningful participation	5
Caring adult relationships	26
School connectedness	31
Sample Size = 68 Average Response Rate = 96%	

The entire staff has committed to attend training on The Nurtured Heart Approach and is developing relationships with Sutter/Yuba Behavioral Health and other partners to address the mental health and drug and alcohol concerns that are present. Currently, students regularly report that they are homeless and the staff reports that they are aware of at least ten families that are currently homeless (but not formally identified). Community partnerships to help provide family supports and services for homeless families are being explored and the hope is to have an onsite coordinator funded by Sutter/Yuba Behavioral Health housed at FRA to assist students with both drug/alcohol issues and homelessness by December of 2017.

INCREASED OR IMPROVED SERVICES

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

Additional training for staff on the needs of these specific types of students and align instructional practices to best support all learners.

Development of partnerships with local agencies to provide more services to students on the school site and within the school day to address drug, alcohol, mental health and homelessness.

Increased collaboration with districts and local agencies to ensure that we are working together to support students with the greatest needs.

Increased opportunities for students to see beyond a high school diploma by providing mentoring services, career pathways, and opportunities to learn about available education options post high school.

The LCAP is intended to be a comprehensive planning tool but may not describe all General Fund Budget Expenditures. Briefly describe any of the General Fund Budget Expenditures specified above for the LCAP year not included in the LCAP.

The Sutter County Superintendent of Schools is located in Yuba City, in north-central California.

The county office offers a number of services to its student and district populations, including fiscal assistance and oversight, special and alternative education programs Tri-County Career Technical & Induction programs (BTSA), a SELPA, curriculum, instruction programs, Career Technical Education, and adult education.

The Sutter County Superintendent of Schools Office plays an important role in the delivery of quality education to the students of this county. We provide direct service instructional programs to nearly 9,500 students annually through infant programs, special education, vocational/ occupational programs, outdoor science, adult education, and alternative education. These programs are operated more efficiently by the county than by a school district (with economy of scale) and more appropriately than a school district with confined boundaries. The Sutter County Superintendent of Schools Office provides these services to district students through cooperative agreements among participants.

The Sutter County Superintendent of Schools Office has an outstanding staff dedicated to delivering successful solutions to the challenges of our local and regional partners by providing innovative support and services to promote education and self-sufficiency.

SCSOS provides these services to more than 21,000 public school students located within 12 school

districts and 9 charter schools including approximately 435 students served by county operated schools. Services and programs include:

Budget oversight and assistance, Local Control Accountability Plan (LCAP) support, Special and alternative education programs, Tri-County ROP/Career Technical Education, Tri-County Induction Program (BTSA), Adult Education, Special Education Local Plan Area (SELPA), Federal and State compliance for Sutter County Districts, Medical Administrative Activities, Credential analysis, Student Attendance Review Board, Countywide staff development, Countywide technology support, Countywide Facilities Support, Supporting Dislocated Workers through Federal and State Grants, and Fiscal Support for our smaller district and charter schools.

The chart below shows two slices pulled out which represent the programs and services addressed in the LCAP.

ANNUAL MEASURABLE OUTCOMES

EXPECTED

1. WASC accreditation will be maintained
2. There will be a 4% increase in the number of students who complete Algebra 1.
3. Because two years of data is needed to determine growth targets, the 2014-15 and 2015-16 CAASPP ELA and Math scores will be used to determine targets. Therefore, analysis will occur based on these test years and growth targets will be determined and recorded in the LCAP for the 2016-17 school year update.
4. HQT in Core subjects will be maintained, and there will be an increase of HQT in all subject areas.
5. Standards aligned instructional materials will be purchased.
6. Students will be increasingly instructed using standards-aligned materials
7. Course access to CORE classes will be improved and maintained

ACTUAL

1. Several FRA staff members, as well as the Director of Student Support Services, have served on WASC committees during the 16-17 school year to provide insight to FRA regarding the development of the mid-term progress report and WASC visit that will occur in the 17-18 school year.
2. Sixteen students completed the Algebra 1 requirement during the 16-17 school year. That is a decrease from the 2015-16 total of 19 students.
3. When comparing the 2016-17 CAASPP mathematics scores to the 2015-16 scores it showed an increase of all students met standards of 2.9%. Completing the same comparison for CAASPP ELA scores the scores showed an increase of 2.4% of students who scored standard met.
4. All teaching positions are filled with teachers that are considered HQT.

based on students' credit deficient needs.

8. Students will show a 2% growth on the Renaissance Learning English and Math portion as assessed three times/year.

5. Standard aligned materials were purchased for World History, U.S. History, Economics, Government, English 9-12 and mathematics.

6. Student's use of standards aligned materials have increased as more materials have been purchased. Additionally, for teachers who use Google classroom the engagement in the standards materials has increased.

7. The master schedule was designed and adjusted each quarter to ensure students had access to courses as credit needs arose. Additionally, Odysseyware was introduced as an option for students to earn credits.

8. The Renaissance Learning data for pre and post test scores had a very small sample size. The LCAP team decided to use the summary reports for English using the Instructional Reading Level (IRL) to serve as a criterion reference score. The instructional reading level by grade level are indicated below by grade level and averaged over the three administrations.

Grade	Admin 1	Admin 2	Admin 3	Average
7	2.9	3.7	3.5	3.4
8	4.4	5.6	3.3	4.4
9	4.9	4.4	4.8	4.7
10	5.7	6.0	5.7	5.8
11	6.8	5.2	5.3	5.8
12	5.8	4.3	6.2	5.4

For math the team determined that the grade equivalent would be a reportable measure. The scores for each administration by grade level with a grade average are indicated below.

Grade	Admin 1	Admin 2	Admin 3	Average
7	3.4	4.1	4.6	4.0
8	4.9	6.7	4.7	5.4
9	4.8	4.8	6.5	5.4

10	7.4	6.2	7.8	7.1
11	7.1	6.9	3.8	5.9
12	7.0	5.4	7.7	6.7

One of the challenges with analyzing benchmark like scores is that due to the transient nature of the student population the students assessed are not the same from one administration to the other. This metric has been removed in the 2017-18 LCAP as it is not a valid measure.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	Eleven of the thirteen actions of this goal were implemented. Staff received the needed professional learning to continue to focus on providing a high level of academic instruction and moving forward with the goals identified in the WASC Schoolwide action plan. The introduction of Chromebooks and Google Classroom as well as Google training allowed deeper implementation of this goal.
Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.	The introduction of Chromebooks and new curriculum, including Career Technical Education courses, as well as new course offerings allowed students to access a variety of curricular offerings and make academic progress aligned to standards. The actions and services, while effective, need some continued refinement to better align with the WASC Schoolwide action plan.
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	Funds were not expended for an instructional coach as indicated in action 12 nor did the amount estimated to purchase curriculum equal the budgeted amount (Action 3) . The technology purchases (Action 4) were greater than budgeted and no funds were expended to hire tutors as indicated (Action8). Additional funds were spent to support two CTE courses rather than the original estimate of one section (Action 13). All other actions were funded at the levels indicated with no material differences.
Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.	This goal has been eliminated and a new goal will be created that has actions and services that are better aligned to the action plan developed during the WASC Focus on Learning stakeholder input process to continue to align and implement programs that meet the needs of all students. The new goal is indicated as goal 1.

ANNUAL MEASURABLE OUTCOMES

EXPECTED

1. Teachers and administration will develop individual learning plans with students; perform transcript audits and over-all academic support and counseling, including discussion of parent needs for support, with each student and parent.
2. Increase parent and student support offerings and increase participation in those offerings by 5%.
3. Implement alternative ways to get parent input.
4. Monitor the process of obtaining foster youth school records and scheduling in accordance with AB490.

ACTUAL

1. All incoming students participate in an orientation session prior to their first day of attendance at FRA. Continuing students meet with the counselor three times per year to adjust course selection as needed for credit completion.
2. A full-time counselor was added to the FRA staff this year to allow improved access for parents.
3. Parent input was obtained during formal events such as back-to-school night and the annual dinner/open house. Additionally, front office staff has begun the process of obtaining informal parent input when opportunities arise. This is an area of continued struggle for FRA.
4. The student information system (Aeries) was updated to include a foster youth graduation track.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Intervention needs for students who attend FRA are great. This goal providing the additional supports to help meet the needs of this campus of at risk youth. The staff at FRA works hard to provide as many immediate supports as possible. Such supports included a mental health counselor, working 1:1 with students to create personal learning plans, the school attendance officer working directly with families during home visits, staff the assist with helping families understand the needs of their students by providing consistent communication in the parents' home language and the name of a single contact that is designated for each student. Additionally, by providing office space and funding to our local probation department, students with the greatest need can be given direct support from the probation officer on site.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

This goal was effective and implemented as expected. Intervention is an ongoing focus for the staff at FRA as the needs changed almost hourly depending on the student population and the impact of events in the school and local community on the students who attend FRA.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Funding for development of learning plans was not expended as expected due to a staffing change (action 1), costs increased in the area of student support as the needs of the current enrolled students were greater than in prior years (action 3). Additional tutoring for English Learners(action 7) or curriculum for ELs (action 8) was not expended as expected based on school need.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

This goal has been eliminated and rewritten as goal to to better address the need for additional intervention in the areas of social emotional supports as well as family support services have been identified. A goal that continues to provide focus on this area of need, along with the appropriate actions and services will be written. This goal will include actions/services to specifically address the areas of truancy, dropouts and victims of crime will be added.

5. Graduation rate will increase from local baseline data by 5%
6. Administration and staff will collaborate with Child Welfare and Attendance concerning Foster Youth
7. Facilities and materials will be maintained as "good" per Williams

ACTUAL

1. County probation provides an officer on campus for a minimum of 20 hours per week.
2. YTD student attendance is 80.5 % and increase from 76% in 2015-16, a 5.8% increase.
3. Suspension rates have decreased by 88 offenses (219 in 2015-16 to 131 in 2016-17), 40%.
4. Chronic absenteeism is still a concern from FRA with most students with the greatest impact identified with homeless and foster youth. The rate has increased from 35% to 45.2% for all students
5. The number of students who graduated in 2015-16 was 37, in 2016-17 the number of graduates is 23 which represents an decrease

of 14 students.
 6. Administration and staff have regular meetings with the Intervention Prevention (IPP) coordinators to facilitate services to support Foster Youth. IPP advises the FRA staff weekly about the status of Foster Youth enrolled at FRA.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	Safety, attendance and discipline are a constant area of focus for FRA. This goal was implemented to provide the additional and ongoing supports to create a safe learning community for at risk youth. The teen leadership class allows the students at FRA who often don't see themselves as positive leaders a chance to demonstrate and learn how to be leaders. However, due to the fluctuation in enrollment the hope to offer this course all year was limited and only had enrollment for one semester.
Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.	The staff at FRA is working hard to build relational capacity with all students. This is an area of need as most students that come to FRA have not had a positive school experience and often have environmental factors such as drug and alcohol use as well as mental health concerns such as chronic sadness and suicide. This goal continues to be a focus of improvement.
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	Attendance incentives did not cost what was budgeted (action 1). The teen leadership class was only offered one semester due to low enrollment (action 3)
Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. 2. The achievement gap between foster youth and the general student population will decrease by 2% through a comparison of data based on student's age, grade, chronic attendance rates, time of enrollment, and standardized test results.
3. There will be a 5% increase in the number of foster youth for whom key stakeholders have received timely health and education-related information

ACTUAL

1. A survey administered to district liaison staff on November 15, 2016 indicates an average response of 4.55 % (out of 5) that the information they are receiving from the Intervention and Prevention staff will increase the quality of services to students and families. 28 attendees, 26 respondents
2. Achievement gap data for Foster Youth are not reported on the California Dashboard. Foster youth are currently enrolled in four of the twelve districts in Sutter County and our county operated community school. Disaggregated achievement data is not collected on these youth by a local measure due to low enrollment numbers and issues of student confidentiality. Until statewide indicators are developed and reported on the California Dashboard this expected outcome cannot be measured.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	The Intervention and Prevention (IPP) staff of the Sutter County Superintendent of Schools coordinate services for Foster Youth. The development of a mentor program by this department has been a positive addition to the services provided to Foster Youth. Additionally, as changes occur in the Education Code around the needs of Foster Youth, the IPP department provides updates to district foster youth liaisons both in person and in coordinated trainings. The staff is also working hard to ensure that our district stakeholders have the tools they need to support the specific needs of foster youth.
Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.	The actions/services outlined in this goal are effective and have been completed. There is a continued need to be able to provide as much training as possible to foster youth liaisons to better serve students who have been identified as enrolled in our local school districts, as well as, provide regular updates on “hot topics” to support this high-risk group. The recent Continued Care Reform (CCR) will continue to influence the work of this department as more students may be coming to the local schools based on the outcome of this reform.

Describe the overall implementation of the actions/services to achieve the articulated goal.

2016-17 was the second year of the current county office of education expulsion plan. During the 16-17 school year the largest district had a change in staffing which resulted in new discussions about plan elements. The beginning discussions were productive and the team will finalize any updates and changes to the plan during the 17-18 school year.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

The data collected regarding expelled youth has been difficult to track. As we have identified this need we have purchased additional software and developed procedures to ensure that we are tracking the expelled youth in a more comprehensive manner. One of the other elements of concern is the ability for students to return to their home school. When updating the plan for expelled youth one of the areas of focus will be to add clarity to this area of the plan to ensure all districts have the same understanding of the return process.

INVOLVEMENT PROCESS FOR LCAP AND ANNUAL UPDATE

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

Introduction

The intent of the Sutter County Superintendent of Schools is to gather input from all stakeholder groups including parents, teachers, administrators, bargaining units, local school district personnel, FRA School Site Council/parent advisory/DELAC, foster youth advocates and liaisons, community-based agencies, law enforcement, county government agencies and other partners that serve and support students served by the Sutter County Superintendent of Schools. The County Office LCAP was created with input from stakeholder groups obtained in a variety of settings, meetings and discussions throughout the school year.

How Data was Collected

Survey data was collected from stakeholders at Feather River Academy and from foster youth advocates. Stakeholder input was sought regarding programs and services during regular meetings with parents, COE staff, community-based agencies, law enforcement, county government agencies and other partners. The county board of education (CBE) was provided monthly reports on the progress of actions and services of the LCAP during monthly meetings.

IMPACT ON LCAP AND ANNUAL UPDATE

How did these consultations impact the LCAP for the upcoming year?

Data was gathered and analyzed from all the stakeholders detailed above. The aggregated data was then used to prioritize the COE areas of focus that were then used to drive the development of LCAP goals, actions and services. The data collected from the annual update was used to adjust and refine these goals, actions and services to best meet the needs of the students served at Feather River Academy and supports to districts for Foster Youth. Feedback collected regarding school climate and culture and community need that was not measurable, but which, nevertheless was persuasive enough to drive some of the actions and services.

Stakeholder engagement related to the process for the annual review of the 2016-17 school year was incorporated as identified needs for revisions and adjustments. In addition, goals and aligned actions and services included in the 2017-18 LCAP were adjusted and amended accordingly. The annual update was positively impacted through stakeholder engagement insofar as progress reports were regular and ongoing throughout the school year as described above. Stakeholder input based on regular reviews of the data was integral to identifying areas where progress was deemed sufficient. In addition, a public hearing was held in which COE staff provided a detailed account of progress to the County Board of Education. This account specifically identified areas of strength and weakness. Areas of weakness were the target of direct discussion including

how the LCAP goals, actions and services were adjusted to better meet the needs identified. As an example, the action of creating pacing guides and providing instructional coaching was not met and as a result a renewed focus on how to ensure this action was completed was identified and strategies discussed. In this way, the spirit of ongoing improvement has been honored and the COE efforts to provide a transparent analysis of its work to better serve students have resulted in the revisions necessary to demonstrate ongoing improvement. The greatest area of need that was identified by stakeholders was the desire to have the multiple plans, WASC, LEAP, SPSA, aligned to help stakeholders understand the desired outcomes. The 2017-18 LCAP has been written to be the best representation of the consistent goals of all the plans to honor the request of stakeholders.

Goal 2

Identify barriers and strategies to overcome those barriers to improve school environmental scales as reported in the California Healthy Kids Survey (CHKS) and support all students by creating a school climate that is safe.

State and/or Local Priorities Addressed by this goal:

Suspension Rates:

The staff at FRA has participated in training on Trauma Informed Care, Capturing Kids Hearts and A Nurtured Heart Approach. However, there is still a concern that the overall disciplinary practices are still punitive and are not restorative. Suspension results calculate to a suspension rate of 42 % (42 students suspended for 99 days)

School Climate:

The staff at FRA is working hard to build relational capacity with all students. This is an area of need as most students that come to FRA have not had a positive school experience and often have environmental factors such as drug and alcohol use as well as mental health concerns such as chronic sadness and suicide. The most recent California Healthy Kids Survey Data (CHKS) reports gaps in environmental scales.

[Identified Need](#)

Sutter County has twelve districts that depend on the COE for support with services to identified foster youth. The Intervention and Prevention Programs (IPP staff) assist districts by providing training, and case management services by serving as “technical” experts in the service needs for foster youth with changes in laws this need is ongoing. The IPP staff also identified that foster youth would benefit from a mentoring program to help assist with college and career transition and connection with adults of common interest.

FRA serves the students that are expelled in grades 7-12 for the districts in Sutter County. The current expulsion plan that outlines the coordinated services for expelled youth is updated every three years and revisited annually. Reentry plans are developed in conjunction with students, parents, teachers and appropriate school personnel. Currently four students returned to their district by completing a reentry plan and four graduated from FRA.

Each student who enrolls at Feather River Academy must attend an orientation with their parent(s)/guardian. One task in the orientation is to review the rehabilitation plan for expelled students written by the expelling school district. Each condition is reviewed, and the expectation for clearing the expulsion is set in place. Placement in an FRA program is based on these conditions.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year

2017–18 2018–19 2019–20

[Estimated Supplemental and Concentration Grant Funds:](#)

\$ 383,656

[Percentage to Increase or Improve Services:](#)

4.4%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

The Minimum Proportionality Percentage for increased or improved services for low-income pupils, foster youth, and English Learners is 100 %. We are meeting the calculated MPP with a blend of quantitative and qualitative measures. Professional development and instructional coaching will be provided to staff to support the use of strategies to support English Learners, especially long-term English Learners, support the needs of RFEP students, foster youth, homeless and students who are victims of crime. We will provide additional support for case management of students by increasing adult to student ratio to support activities that engage students and provide intervention and prevention activities and provide resources to reduce barriers to accessing education such as transportation options and school supplies. We will focus on relationships with EL students and parents by assigning staff to monitor and support progress and connect with parents on a regular basis and purchase additional education materials, specific to the needs of English Learners if needed. On an LEA wide basis we specifically address unduplicated pupils in goal 1, Actions 10 by providing resources to reduce barriers to accessing education; transportation options, school supplies and ensure facilities meet the expectations of the Williams Act Review and in goal 1 Action 12.
